PRODUCT: TRANSLATOR FOR CONTENT SUITE PLATFORM BY CASSIA

OpenText Translator for Content Suite Platform by Cassia

Translator for Content Suite Platform by Cassia takes Content Server's multilingual features to the next level by incorporating multilingual attributes, enterprise menu items, assisted search, system messages, news items, translation preview and much more.

Partner Overview

As an OpenText Global 3rd Party Technology member, Cassia Content Management is a software development company that focuses on enhancing the feature set of the OpenText™ Content Suite Platform of applications. Our success is due to providing modular solutions that allow our customers to extend or add new Content Server features, streamline their business processes, facilitate user adoption and maximize their return on their investment in OpenText™ Content Server software.

Product Overview

Enhance the multilingual capabilities of OpenText Content Server. Not only can it attribute names and values, Live Report fields and other items presented in the users' language of choice but also leverage third-party APIs to find and read assets in other languages. Rigor is maintained through a combination of a corporate lexicon and reporting available to the Knowledge Manager. Translator for Content Suite Platform is also backwards-compatible, helping to ensure that any existing products/integrations continue working seamlessly.

Product Highlights

- MULTILINGUAL METADATA provides greater adoption of facets, columns, adding content and integrations
- TRANSLATION-ASSISTED SEARCH expands the Search and Collaborative capability of Content
- CONTENT PREVIEWER feature empowers users to understand all content; not just content in their own language
- MULTILINGUAL REPORTS consolidated into single global view in language of user
- MULTILINGUAL WORKFLOW making instructions, attributes, step names and so on available in the user's language

Value Proposition

- Expanded User Self-Serve
- Find assets with content or metadata in other languages
- Preview documents in your language of choice
- Improved User Search & Collaboration
- Increases user independence to find and preview information
- Leverage automatic translations on your search query

Key Integrations

- OpenText™ Content Suite Platform
